

IN THE SPECIFICATION

Please amend paragraph [0001] as follows:

This application is related to pending U.S. Patent Application entitled “Wafer Shipper With Orientation Control,” [~~Attorney Docket No. 067810-0303880~~] Serial No. 10/621,031, filed on the same day as this application, and which is expressly incorporated by reference herein.

Please amend paragraph [0024] as follows:

The draft angle of the wall sections 60, 62, and 64 is evident by the line 82 indicating the inside perimeter of the wall section at the level of the bottom of the wall structure 56. Line 84 indicates the inner perimeter of the wall section at the top of the wall, which clearly lies outside the line 82 at the bottom, and therefore indicates the draft angle. This detail is more clearly shown in the ~~enlargened~~ enlarged section A I.
